📘 @QuarrySpringsPark

Fundraising efforts are underway to bring approximately 30 RV campsites to the park, to be located east of the park's office. Each site will be equipped with electric and water hook-ups. Additionally, a permanent restroom and shower facility, as well as an onsite dump station, are part of the project.

In the more than four years since Quarry Springs Park opened as a community outdoor recreation destination in central Iowa, donations, grant funds, and more than 36,000 volunteer hours have improved the park for all who visit.
